Where is food innovation taking us, and how is it challenging traditional ways of thinking about food. At A Great Day for Food Innovation 2016, you're invited to catch up with the latest insights.

Along with an impressive line-up of speakers, we'll be introducing two new initiatives to highlight innovation within the Danish food sector: **Food Innovator Award** and **The Newcomers**.

You can also join our **expo** and present innovations from your own business – either by booking a stand or distributing product samples in a goodie bag.

The annual Danish Food Cluster **general assembly** and dinner will round off the day.

[See the program and read more.](#)

ORGANISED BY

# CONFERENCE PROGRAMME

- 9.30 Welcome snacks
